MONGOLIAN PEOPLE'S REPUBLIC ECONOMIC DEVELOPMENTS
19 2-951 INCLUDE ELECTRIC GENERATING STATIONS

Ulan Bator, 9 April (Tass) -- Today, the newspaper <u>Unen</u> published the results of the plan to develop the peoples economy and culture in Mongolia duration was a supplied to the people and the people and the people are supplied to the people and the people are supplied to the people are supplied to the people are the pe ing 1951. According to the report the plan for capital construction was successfully fulfilled. The buildings included the Hall of Government, six electric generating stations, and many schools, clubs, hospitals, and hostels. The number of cattle increased by 18 percent on government farms and by 20.2 percent in the arat production groups, and cattle productivity was increased.

Great successes were achieved in agriculture. The total area sown in grain increased 12.7 percent and the yield increased 11 percent.

High-grade technical equipment for the industry of the republic was received from the Soviet Union. Mastering of the techniques of the Soviet States khanovites gave great assistance to the collective industrial combines, the Stalin Meat Combine, the food combine of Choibalsan Aymas, the Ulan Bator furniture factory, and other enterprises. There has been an increase of about 20 percent in the production of items of general consumption such as felt, yurt cloth, leather goods, clothing, and footwear.
